

LOCUS DESK

Signature Standing Desk

LOCUS DESK

Signature Standing Desk

Certain things send a message to those around us. With the Locus Standing Desk, the message is clear: "I've got this!" The Locus Standing Desk is smart, confident, and rock solid- just like you.

Never before has a standing desk looked- or felt- this good. The Locus Desk's stripped-down, modern aesthetic will make you the envy of the office (trust us). What's more, the desk packs a serious ergonomic punch, keeping you in an active posture while you work.

How does the Locus Desk work? Glad you asked. The desk lifts and lowers effortlessly with the turn of a precision German hand crank. The American-made desktop adjusts easily too. The desktop pivots from absolutely flat to a 15 degree angle, enabling you to find your perfect working position, whether you are working on a computer or sketching in a notebook. The Locus Desk is now available in 3 desktop sizes, so it's easier than ever to customize your desk to fit your workspace and work style.
